PROFILE

Front-End Developer with 1 year of hands-on experience (including internship) building responsive web applications with React.js, Next.js, and TypeScript. Currently developing the admin operations dashboard and customer portal of Boxit, a live storage and logistics platform used by dozens of users. Experienced in RESTful API integration with RTK Query, reusable component libraries, and delivering features in Agile teams alongside design, backend, and QA.

EXPERIENCE

Front-End Developer — Boxit

May 2026 – Present

- Build and maintain the Admin Operations Dashboard and customer-facing web application for Boxit's live storage and logistics platform, serving dozens of users, using React.js, Next.js, TypeScript, and Material UI.
- Designed and built a library of reusable, responsive UI components adopted across multiple product screens, reducing duplicated code and speeding up new feature development.
- Integrated RESTful APIs with RTK Query to power core features, implementing data fetching, caching, and state synchronization.
- Collaborate with design, backend, and QA teams in Agile sprints to ship features to production.

Front-End Developer Intern — Beetleware

Feb 2025 – Jun 2025

- Built UI features with React.js across 5 small projects, from design handoff through deployment, under the guidance of senior developers.
- Worked with the team to build a large dashboard as the final internship project, integrating third-party APIs and resolving bugs.
- Worked in an Agile environment using Git, contributing to sprint planning and code reviews.

PROJECTS

Boxit Web App | React 18 · Redux Toolkit · RTK Query · Material UI · TypeScript

Production admin dashboard and customer portal for a storage & logistics platform, built with RTK Query and Material UI.

Live: boxitstorage.com

Movie App | React · TMDB API

Responsive movie browsing app with search, filtering, and detail pages powered by the TMDB API.

Live: movie-app-ku2h.vercel.app | Code: [GitHub](#)

SaaS Landing Page | React · Modern CSS

Fully responsive SaaS landing page with a clean, modern design and smooth cross-device layout.

Live: saas-landing-opal.vercel.app | Code: [GitHub](#)

EDUCATION

Information Technology Institute (ITI) — Intensive Front-End Development Track

2025 – 2026

Higher Institute of Computers and Information, Tanta

2022 – 2025

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, Semantic HTML, DOM

Frameworks & Libraries: React.js, Next.js, React Hooks, React Router, Redux Toolkit, RTK Query, Axios, jQuery

Styling: Material UI, Tailwind CSS, Bootstrap, Sass, Flexbox, CSS Grid

Testing: Jest, React Testing Library

Tools: Git, GitHub, VS Code, Postman, Figma, Vercel, Chrome DevTools, npm

Concepts: Responsive Design, RESTful API Integration, State Management, Context API, SSR/SEO Basics, Performance Optimization, Accessibility (a11y), Agile/Scrum

LANGUAGES

Arabic: Native **English:** Professional working proficiency
